$\square$

The result of N\&W's continuous research for solutions in line with the needs of the dynamic vending market is here for all to see - in Mambo. Mambo is perfect for semi-public locations, because it combines, in one machine, the two 'must-haves' in this sector - robustness and the capacity to deliver a large number of products without packaging constraints.
Mambo is stunning with its two windows and the central interface that allows you to customise the offer and manage the configurations of the two cells easily. Mambo is set to become a blockbuster in the semi-public sector.

## DESIGN AND USER INTERFACE

- Two cells lit by LED lighting
- New central user interface which manages both cells
- Graphic display $128 \times 64$ pixel
- Metal numeric keyboard
- Anti-vandalism coin introduction
- Trays with ETL system (electronic tray labels)
- Possibility to install a graphic screen in the user interface area
- Wide delivery bin

## TEMPERATURE MANAGEMENT

- Possibility to set up to 4 temperature areas inside the machine
- Possibility to have a food area in both cells
- Maximum number of food trays per cell: 5
- Possibility to set a full C\&B layout in both cells

## ELECTRONICS

- N\&W electronic platform with16-bit electronics with 4 MB Flash memory
- Possibility of combined and virtual selections
- Data collection in line with the EVA DTS standard, using GIGA software
- IRDA compatible

## FEATURES

| HEIGHT | 1830 MM |
| :--- | :---: |
| WIDTH | 1300 MM |
| DEPTH | 896 MM |
| WEIGHT | 450 KG CA. |
| DEPTH WITH OPEN DOOR | 1419 MM. |
| VOLTAGE | 230 V |
| FREQUENCY | 50 HZ |
| INSTALLED POWER | 750 W |
